

1. Assignment Report Submission

The report should contain:

- Front Page
- Content
- Problem statement
- Understanding of the problem
- Dataset source
- Dataset description
- Data cleaning/preprocessing
- 5 analytical questions
- 5+ visualizations
- Interpretation of each visualization
- Bad visualization + corrected visualization
- Comparison of two visualization techniques
- 5 major findings
- Conclusion
- Limitations
- References

The report should contain the actual charts, not just screenshots of code output.

2. Front Page Structure

**[UNIVERSITY NAME]
[DEPARTMENT NAME]**

**BACHELOR OF COMPUTER APPLICATIONS (BCA)
Data Science & Machine Learning**
